Letter No. 1803

Dated 16/06/2026

To

Principal,
Sahibzada Jujhar Singh Public Sen. Sec. School,
Kot Dharmu (Mansa).

Subject: Regarding issuance of Building Safety Certificate (Year 2026-27)
Ref. No.: SJSPS/SPPC/2026-27/6165 dated 06/06/2026.

Your school building was visually inspected by the office of the Sub Divisional Engineer and as per his report/recommendation, the School Building Safety Certificate for 2026-27 is issued up to 31-03-2027 subject to the following inspections and conditions:-

1. A structural safety certificate has been issued by Er. Satwant Singh on 09/05/2026, and according to this certificate, the school is safe for use during the 2026-27 sessions. However, since the construction of this school was not carried out by this department, the department cannot ensure the safety of the school structure, especially from the perspective of earthquakes.

2. If any addition, change, expansion or modification is required or is to be made by the school in this building, then an immediate inspection of this office should be arranged and after completing that part, its safety certificate should be obtained again from this office.

3. If the building's walls, foundations, or roofs settle due to a natural disaster or any other reason, the school must immediately inform this office about the condition of the building, and the building should only be used after inspection.

4. Separate fire safety and electrical safety certificates must be obtained from the concerned departments.

5. Keeping the safety of the school building in view, the responsibility for repairs lies with the school management. Despite this report, the school management remains responsible for the safety of the building in all respects.

6. The school must have a plan to deal with any unforeseen disaster, which should include procedures for evacuating children from the building during emergencies and coordinating with the concerned departments. The school should regularly review and update this plan to ensure its effectiveness.

7. As per the directions of the Punjab Government, the school management itself will be responsible for obtaining approval for the "Road to Access" from the concerned department.

8. The school must provide appropriate safety training to staff members, including procedures for handling emergencies, first aid, and evacuation protocols.

9. Based on the covered area of the school, an amount of rupees Ten Thousand (Rs. 10,000/-) has been received as building inspection fees through GR number 4629243 dated 10/06/2026.

10. This report is not valid for legal purposes.
